

Phase III – Matching Fund Program

(as of December 9, 2015)

Please Help
Us Keep the
Momentum
Going in 2016
and Beyond!

It is essential that we keep the scholarship fund momentum growing to demonstrate to our members our commitment to the water environment cause, not just for ourselves but for our children and generations of children to come. This is truly a program of which each NYWEA member can be proud. Remember, the success of our students is our success as well!

Make a donation or become a matching fund contributor and make a difference for a student pursuing an environmental degree. Phases I and II raised significant funds for the scholarship program. The goal of Phase III is to get as many of our members to become donors. In particular, we are looking to members who have not previously given to become part of this program. Their donations will be matched – providing double the benefit!

We anticipate that this program will allow NYWEA to grant \$50,000 per year in scholarships. To make a pledge or donation to this important program, contact Theresa Baker at (315) 422-7811.

Phase III – NYWEA's Scholarship Program Matching Fund Initiative

DONATION FORM

We are continuing with the third phase of the scholarship program, the first two phases of the program raised over one million dollars for scholarships. NYWEA has given out over \$322,000 to 151 deserving students who are pursuing environmental degrees.

This phase is a matching fund initiative to get new contributors. If you have not contributed to the scholarship program, every dollar

you donate will be matched – doubling your contribution. **We want to get as many new contributors as possible, so the donation is limited to \$100 or only \$20/year for the next five years.** Of course you can contribute more to the scholarship fund, those donations will not be matched but greatly appreciated.
