Quiz Test No. 116 – Definitions

he following questions* are designed for trainees as they prepare to take the ABC wastewater operator test. It is also designed for existing operators to test their knowledge. Each issue of *Clear Waters* will have more questions from a different section of wastewater treatment. Good luck!

- 1. A term used to describe the difference between the actual value and the set point is known as:
 - a. Drift
 - b. Broke
 - c. Sway
 - d. Process variable
- 2. A physical or chemical quantity that is usually measured and controlled in the operation of a treatment plant is called a:
 - a. Process statistic
 - ic c. Process limit
 - b. Process variable d. Pro
- d. Process condition
- 3. To remove a gas or vapor from a vessel or confined space via displacement or dilution:
 - a. Vent
 - b. Seal
 - c. Aerate
 - d. Purge
- 4. A straight pin that will break when a certain load or stress is exceeded is called a:
 - a. Shear pin
 - b. Break pin
 - c. Fail pin
 - d. Wooded pin
- The continuously variable signal type sent to an analog instrument, 4-20 mA for example, is called:
 - a. Digital signal
 - b. Analog signal
 - c. Variable signal
 - d. Steady signal
- The amount of heat required to raise the temperature of one gram of water one degree Celsius is:
 - a. Carb
 - b. Calorie
 - c. Thermodynamic
 - d. Heat transfer

- 7. A chemical that causes very fine particles to clump together into larger particles is known as a:
 - a. Settling agent
 - b. Emulsifier
- c. Coagulant
- d. Colloid
- 8. The spiral-shaped casing that surrounds a pump, blower or turbine impeller and collects the liquid or gas discharged by the impeller is called the:
 - a. Conical housing
 - b. Snail shell
 - c. Volute
 - d. Solenoid
- 9. A digester sampling well that allows sampling of the digester contents without venting digester gas is called a:
 - a. Sludge tube b. Thief hole
- c. Flame arrestor
- d. Manometer
- 10. A flat board or plate placed in flowing water to cause more uniform flow velocities is called a:
 - a. Baffle
 - b. Weir
 - c. Wall
 - d. Sluice gate
- 11. A publication of the U.S. government that contains all of the proposed and finalized federal regulations, including safety and environmental regulations is:
 - a. EPA
 - b. NPR
 - c. CFR
 - d. DEC
